Alliance for Augsburg

**A community taking
responsibility for the city**

**Active Citizens are
engaging in Augsburg**

What is the Alliance for Augsburg?

- The Alliance for Augsburg was initiated in October 2002 by the City of Augsburg to promote citizen engagement.
- Since then politics, administration, economy and citizenship have been involved together for the local community.

- You too, as citizens, can become an ambassador or mentor in the projects and actions of the Alliance for Augsburg.
- Visit us in our office on the third floor of the Public Library Augsburg, Ernst-Reuter-Platz 1.
- We will give you information about opportunities for volunteering.

Our vision and mission:

1)

The Alliance for Augsburg is a community taking responsibility for the city. At its core lies the strong interaction between the local politics / administration, citizens and businesses with their respective competences, based on mutual trust and acceptance. Together we share the responsibility for our goal: increasing the quality of life in Augsburg.

2)

We inspire citizens to volunteer so that they contribute to a better quality of life in the areas of culture, social affairs, education, housing, leisure and the environment. Every citizen can actively engage in the projects of the Alliance in multiple ways.

The involvement of business sector as part of their social responsibility increases the attractiveness and importance of Augsburg as an economic area. Dedicated and active citizens are also committed employees.

The involvement of active citizens is an essential part of local politics and administration. They will be actively and responsibly involved in the development of the local community.

3)

Based on the democratic values and the human rights of the people we understand civic engagement as

- voluntarily exercised, out of one's free will,
- not focused on material gain,
- oriented towards the common good,
- taking place cooperatively and in the public space.

4)

As Alliance for Augsburg, we facilitate the interaction of committed citizens, initiatives and organizations in all areas of society and around all issues of the local community.

Together, we initiate new projects of civic engagement and volunteering.

We focus on providing high quality standards in the process of volunteer management.
